

# Testimonials

## Here's what past participants at SSM want to tell you...

I feel closer to Christ now than any other time in my life.

I loved being around women who are flawed, funny, faithful.

This was my first Bible study. It enriched and motivated me.

I love hearing other women's stories of faith, worry, and their love for our Savior.

It truly helped me love the Word more deeply. I have grown in my faith and have felt such peace. I feel more authentic.

It has challenged me to put God in the center of my life.

It helped me remember that ultimately, my goal is to reach heaven, which is a journey that presents us every day with a fresh opportunity to grow closer to God.

Being new to the area, I felt alone during my husband's deployment. WWP really helped me meet new friends and lean on the Lord.

I didn't even realize I had a need until this appeared, and it has fulfilled me in a way that I have never felt before.

I drew closer to God, met wonderful women, and opened the door of my heart a little wider for the Lord to enter.

It has truly changed my life. I am calmer, grateful, and more at peace than I've ever been.

I'm quiet and thought a Bible study would be out of my comfort zone. If I can do it, so can you!

Don't let the time commitment intimidate you. You will find yourself longing for the weekly meeting.
